

## One letter

Imagine when you want to apologize to someone but have trouble writing apology letters. With one letter, you can easily write letters with assistance of letter templates and lovely illustrations. Meanwhile by using artworks created by children artists you can help poor kids and improve their confidence. Try it! Express love and give love to people!

One Paradise Community Club is a service provided by One foundation, providing community service including art classes to children in disaster, one-parent children, and left-behind children, aiming at improving their confidence and encourage them to create and learn. One letter provides an outlet for these children to share their artistic talent, while offering an opportunity for others to support One paradise programs by purchasing children's artwork.

### Project Highlights

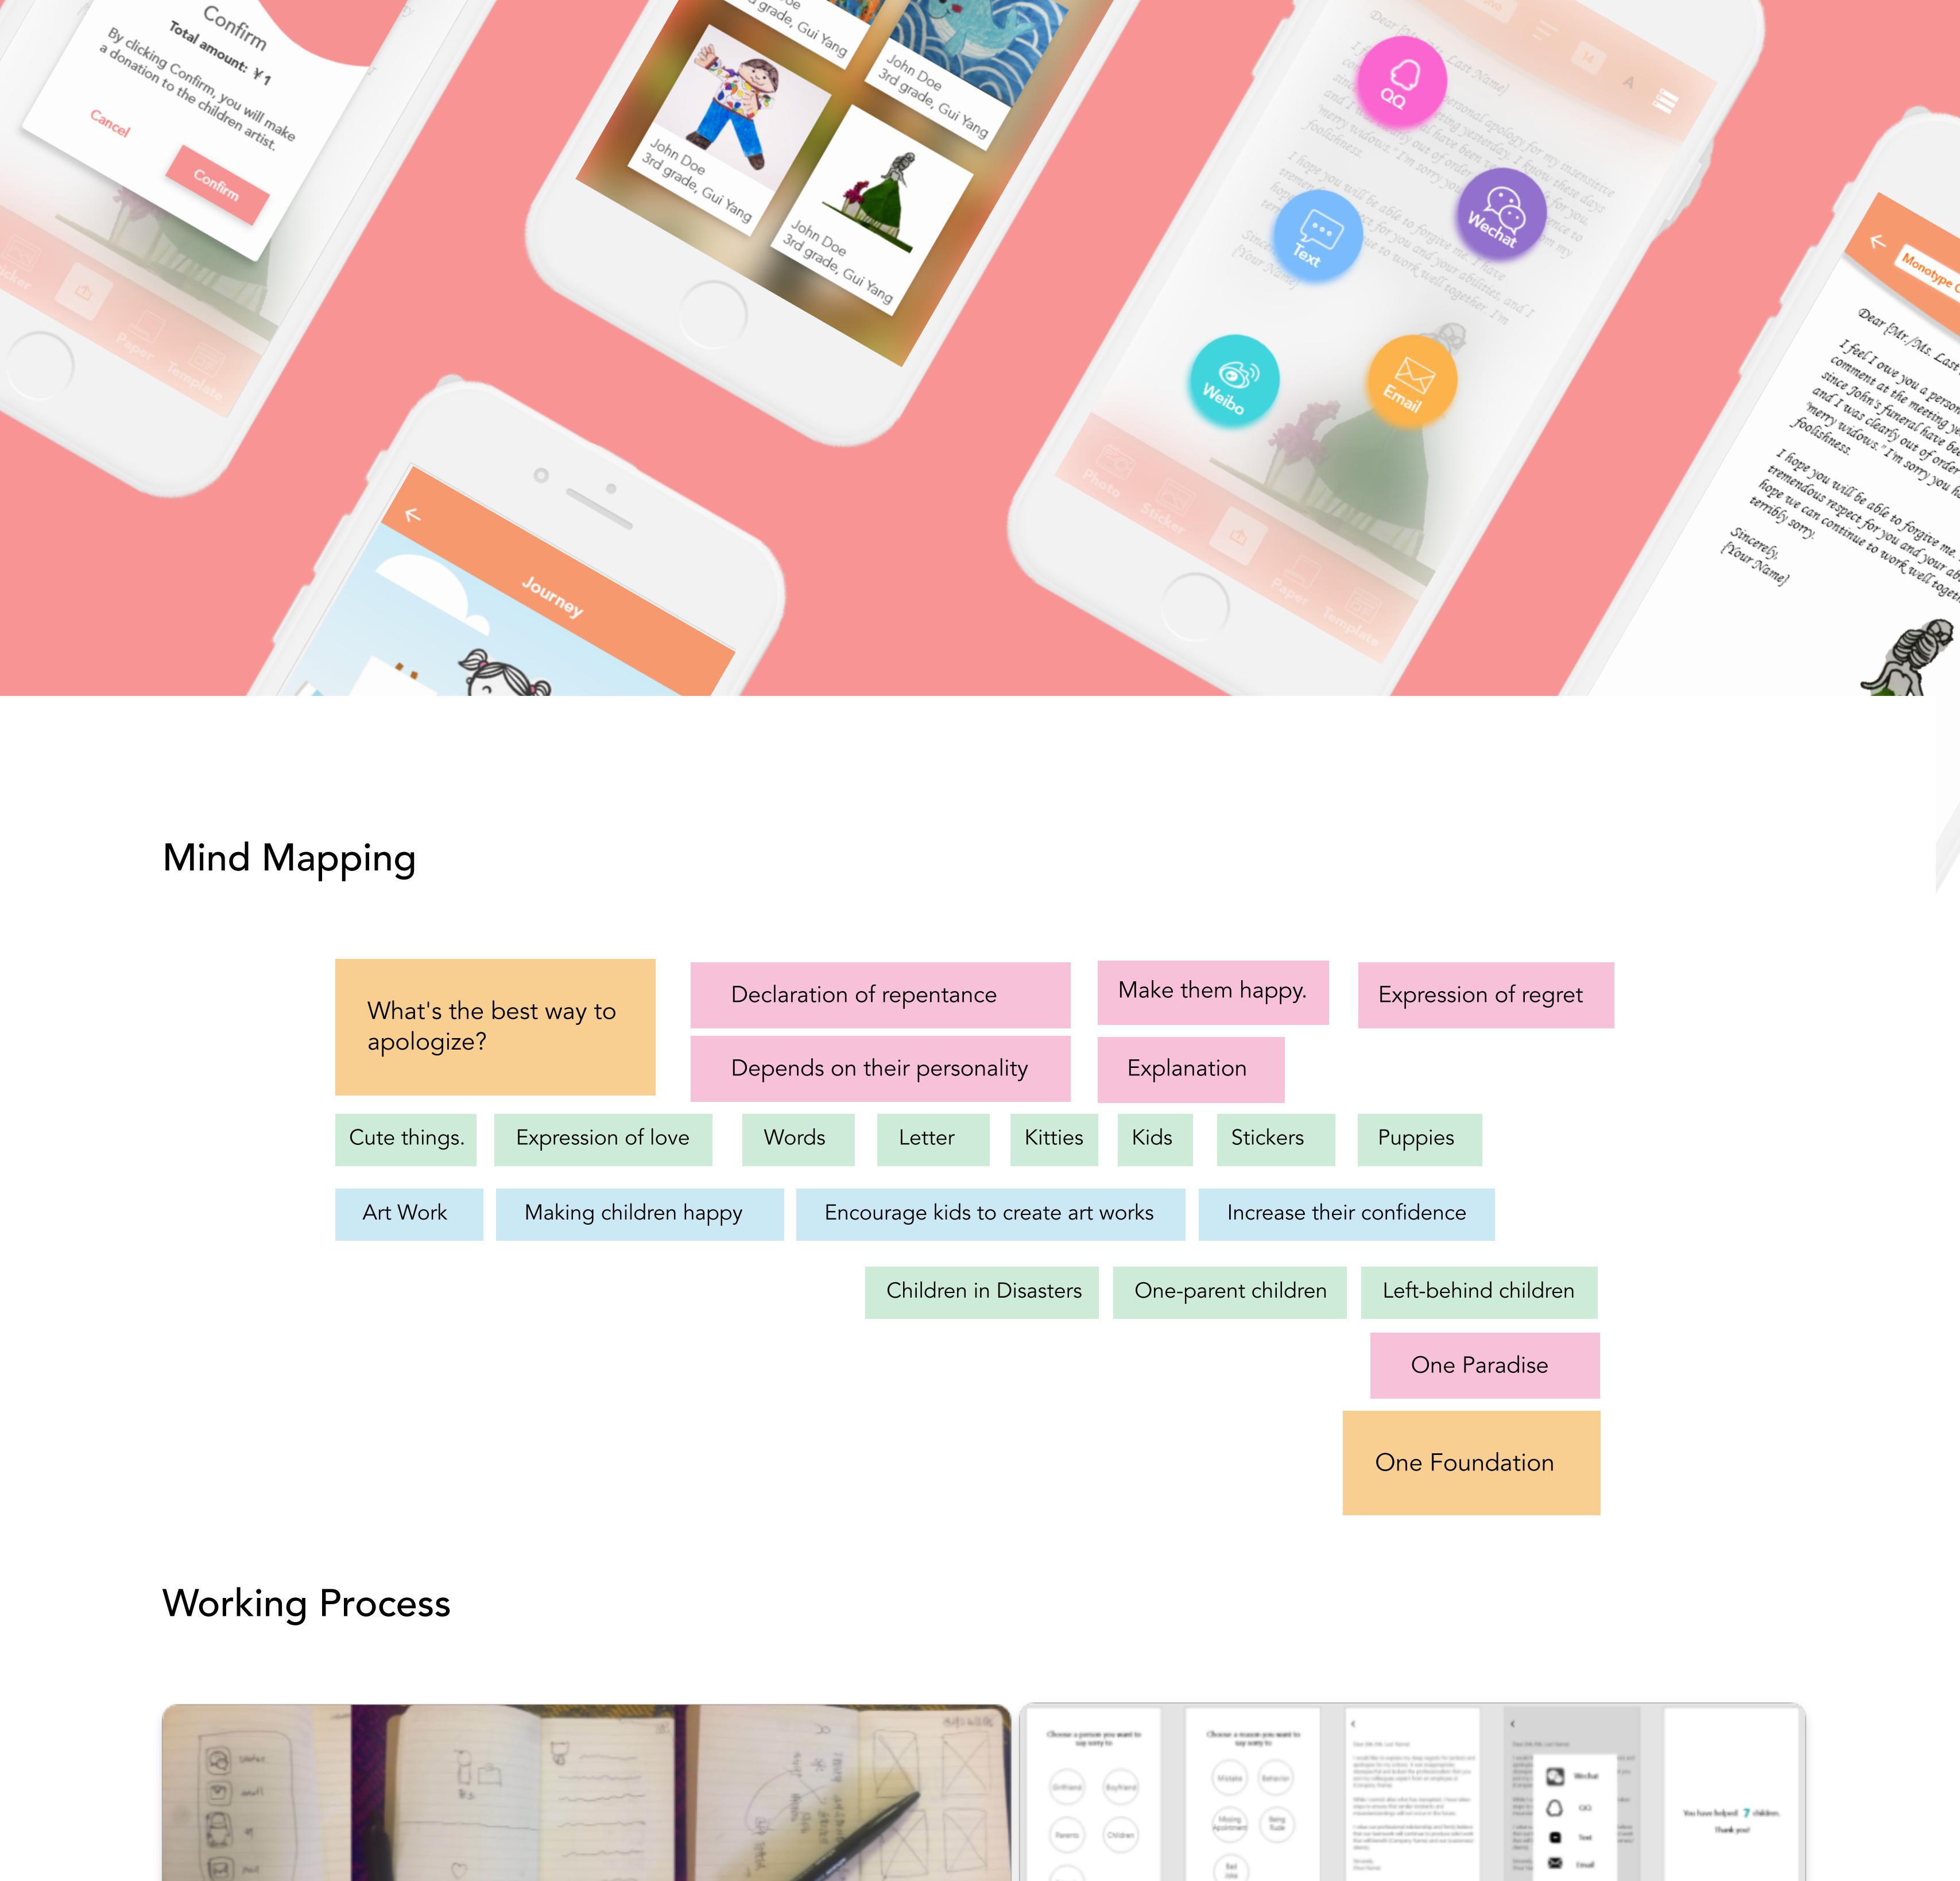

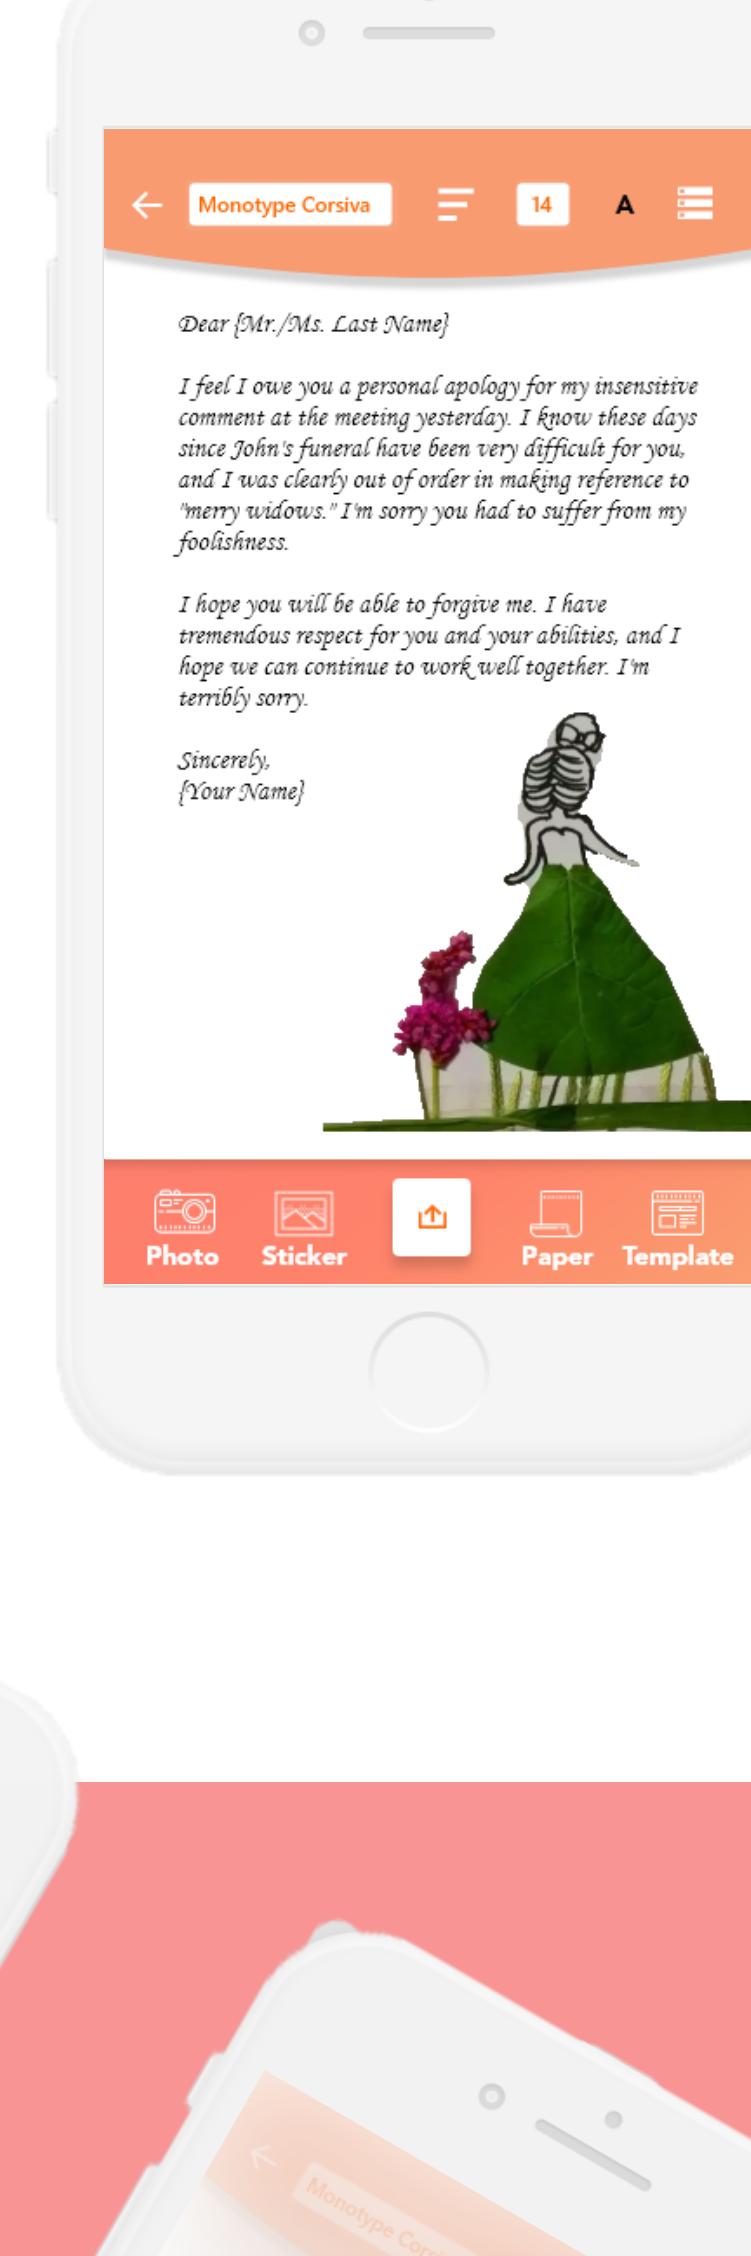

- Easy share to social medias;
- Cute and lovely illustrations;
